Dear Matthew,

The United States Bobsled and Skeleton Federation would like to thank you for everything you've done and continue to do. In my over twenty years of experience, I have never been so impressed with the individual attention and personal involvement that has been provided by your associates. Managers Richard Todorovic and Nick Kashiparekh have been extremely generous and helpful towards the continued success of our athletes, for which we are forever grateful. They provided efficiency beyond expectations, especially needed during the busy times of the last Olympic Games. Also, because of your help our Federation was able to concentrate on athlete success rather than logistical issues. Without your help these athletes would not have been as successful as they have been. The USBSF is, and will continue to be proud to be involved with, and promote a company such as Schenker, Inc.

Again, we thank you for all you've done and continue to do. Your help is genuinely received and appreciated by everyone at the United States Bobsled and Skeleton Federation, and we hope that our friendship and partnership will carry on.

Sincerely,

Lenny Kasten
United States Bobsled and Skeleton Team Manager
