To Whom It May Concern

RE: SCHENKER Stinnes Logistics

The intent of this letter is to act as a reference for Schenker Stinnes Logistics. We have established a history with Schenker since undertaking two major projects in 2003. Both were significant international exports totaling almost 100 sea containers and break bulk loads. The projects in question were pipe coating and conveyor systems and were shipped to the Middle East and to Sakhalin Energy in Russia. We had a subsequent and much smaller project in 2004 of a coating plant that we shipped to Australia.

In all cases I can attest to the high level of support we received from Schenker. The staff were knowledgeable, professional and able to assist with all of our logistical and export requirements. The transition from our previous service provider to Schenker proved to be seamless and we continue to enjoy an excellent working relationship. Prudent business practice necessitates the need for the competitive bid process and Schenker has maintained the status of best value for Garneau Inc..

In closing, I would strongly recommend Schenker to any organization, whether the movement is significant or smaller in magnitude.

If you have any additional questions, please feel free to contact me at 780-955-5314 or via e-mail at ronr@garneau-inc.com.

Yours truly,

Ron Rudanec
Purchasing Manager
